PROPOSALSA For publishing, in the City of And polis, A Periodical Work, to be entitled.

THE RELIGIOUS AND LATE: RARY REPOSITORY.

To be edited by a society of Laymon members of the Protestant Episcopul Church.

The leading views of the Editors are stated in the following note, by one of the persons, who will be actively employed in the selection of the matter for publication.

The Religious Magazines which have been heretofore published by members of the church, are, some of them, very useful as far as they go. My objection to them is, that they do not attempt to give us information, of which the laity, and indeed clergy, stand in much need, and which is with great difficulty to be obtained. In this country the laity have a considerable partiought to possess an intimate knowledge of its history, constitution and laws. As church wardens, and tru-tees or vestrymen, as well as delegates to the convention, they have important and very solemn duties to perform, and with a knowledge of these duties, it ought to be the business of these magazines to turnish them. The subjects usually discussed in them have already been explained and enforced by pious and learned divines, with as much ability as could be expected from more modern wri-ters, and a knowledge of what we are "to believe and do in order to be saved," may be communicated to our readers as well by selections, as by any original matter which we might be able to offer to them. From the writings of approved divines, not al-ways to be met with, even in possession of the clargy, we shall most dequently collect what it is deemed necessary to give on christian doctrine and duty. The magazine will aim to be useful, and desires no other putation.

I am induced to hope that, hes des fur-nishing the laity with us ful information in regard to the duties which are imposed up on them, some hints, worthy of their attention, may occasionally be given to the elery. While they act up to their ordination ows; endeavour to frame and fashion their lives according to the doctrine of Christ, to make themselves wholesome examples of the flock of Christ, and reverently obey their Bishops, following with a glad mind and will, their gouly admonitions, they deserve, and there is in the laity of the church of Maryland generally, every disposition to honour and support them. If, however, at any time, any of them forget to pay due regard to their own solomn engagements, and instead of loving to odwell together in unity," a design should be mannested to introduce disorder and misrale into the church, to oppose its legitimate authority, or to assume powers which do not belong to them, then it is not only the right, but it becomes the imperative duty of the laity, to animadvert upon such conduct with un-

sparing severity.

Approving entirely of the forms prescribed, and of the doctrines agreed to by our Church, it will be no part of the business of the Magazine to recommend or even to connive at, any new inventions, whether in tenets, or discipline or worship. TERMS.
